

## Architect, Site & Material Analyst for the Solar Decathlon Competition

JANUARY 2010 - OCTOBER 2011

- Designed and developed the house to Passive House standards, including program, daylighting, building envelope, PV array, green roof, canopy, etc.
- Created physical models of building for exploration and display.
- Conducted research on site typography, solar analysis, community needs, and architecture characteristics of Deanwood, Washington DC.
- Researched and compared several green materials, like insulation.
- Worked along side architects, engineers, interior, and lighting design students.
- Reached out to companies to seek sponsorship.
- Was present and has clear understanding of the construction of the house.

## Founder and President of White Tops NYC

JANUARY 2010 - PRESENT

- Manage all aspects of the non-profit organization towards earth-aiding goals of advocating, researching, and coating roofs white.
- Led team to win 3 highly competitive grants; one out of thousands to win the Clinton Global Initiative University Commitment Grant.
- Guide staff and volunteers towards achieving goals and tasks.
- Coordinate events, meetings, and research experiments.
- Manage networking, financial, and legal responsibilities.

## Project Leader and Architect for the Chase Competition course at Parsons

AUGUST - DECEMBER 2010

- Designed and submitted a multi-use building proposal that suited the needs of residents of Central City, New Orleans.
- Produced plans, sections, and elevations detailing building for clients.
- Modeled and rendered building using digital programs.
- Generated site maps, material research, and documents for proposal.

## Admin and Design Intern at GreenHomeNYC

JUNE - AUGUST 2010

- Streamlined all necessary aspects of their green energy advocacy programs, like presentations, information documents, and contacts.
- Administered responsibilities, including updating website, organizing and writing documents, contacting property managers, etc.
- Researched, wrote, and designed brochures, information flyer, and material cards.

## Urban Planning Intern at Kraft Studio

JULY - SEPTEMBER 2009

- Studied the needs and issues of the Gowanus area in Brooklyn, NY.
- Designed and mapped ways to address those issues of abandonment.
- Proposed a centralized community plan and trafficking to liven the area.

## AutoCAD Artist and Garden Designer at Rebecca Cole Design

MAY - JULY 2009

- Visited rooftops to collect measurements for producing roof garden plans.
- Designed and sketched placement of green roofs, potted plants, and furniture.
- Helped run and manage the store, displays, funds, and customer service.
- Created floral arrangements for clients.
